Requested Cooperation for the Baseline Study on the State of Transformation in the Construction Sector

Following the gazette of the Construction Sector Code in June 2009, the Construction Sector Charter Council (CSCC) has commissioned the baseline study into the status of BBBEE in the construction sector. This is required to assess the state of transformation and progress of the industry in implementing the gazetted sector code.

In particular, section 7.2.1.7 of the constitution requires the CSCC, through Exco, to *"compile reports on the state of BBBEE within the Construction Sector and... stipulate whether entities have submitted verified scorecards to the Charter Council and have achieved any of the transformation objectives set out in the charter."* Pursuant to this, the CSCC will therefore collect and capture all scorecard data from the Construction Measured Entities for the period of at least 2009 to 2012.

This survey will provide the basis of the annual reports that must be submitted to the BBBEE Advisory Council, the Department of Trade and Industry and the Department of Public Works, as mandated by the conditions of gazette of the construction sector code.

Once this information has been collated, the CSCC will also be in a position to understand the current challenges and weaknesses that require improvement in implementing the construction scorecard.

The CSCC has undertaken to treat all information and certificates received with the utmost confidentiality and will ensure that measures are put in place to preserve the integrity of the study.

SAIA therefore requests that SAIA Corporate Members send the relevant BBBEE Certificates for 2009 to 2012 to scorecard@csc.org.za

SAIA is committed to keeping our members informed and up to date on the latest in the architectural profession. If you have any content or information to submit...
